- Enter URL or embed code: URLs and embed codes can be copied from videos that already exist online. Once you have copied the web address (URL) or embed code, you will paste it into the space provided. URLs and embed codes can be usually be found by selecting the “share” feature of the video or audio you wish to use.
- Upload: Browse your computer to upload a video or audio file that you have saved.

The screenshot shows a dialog box titled "Add Video or Audio" with a close button (X) in the top right corner. It features two tabs: "Web Video or Audio" (selected) and "Upload". Below the tabs is a large text input field with the placeholder text "Enter Url or Embed Code". Underneath the input field is a "Preview" button. Below the preview button is a link that reads "What video sites can be embedded?". In the center of the dialog is a large play button icon. At the bottom left, there are two buttons: "Save" (highlighted in blue) and "Cancel". A scrollbar is visible on the right side of the dialog.

Once you've added your video or audio, choose "Save."
