

2018 SOLI Report

SOLI 2017-2018

March 30, 2020 7:46 AM EDT

Q3 - Please list the topics that were most useful.

Please list the topics that were most useful.

how to use the library computers for reseach papers due in November

Everything we covered in the session was extremely helpful, I knew nothing about how to look up research articles and now I do.

exploring the library webpage, working with Discover

Learning how to pick key words for my topic. Also, learning how that I need to put the word or in between my two topics. Learning how to email myself a link for a article I was interested in.

The most useful topics were how to get to the odum library research page and how to narrow the articles.

Psychological disorders(schizophrenia)

PsycINFO, Discover

Advanced searching through psyinfo

Finding out how you can print from your home computer. Also, learning about the ESCO psychology page.

emailing articles to myself

Galileo

it was all useful

galileo

everything

The Onet online link was very useful in helping me determine where to go for my future.

OnNet online was very useful

MeSH, Onet Online

O*Net online and Pubmed was very useful.

incorporating not just pubmed, but using different websites

pubmed. mesh. onnetonline

Please list the topics that were most useful.

PubMed, ACOG

Learning about google scholar.

Onet online

Pubmed, ACOG

Reviewing pubmed and different ways to find an article

Going over how to use pubmed further and put on different filters.

Learning about Pubmed and researching using google and Task force

pubmed, using google, and learning how to find articles

ONET

The part that was most helpful was using different options to find research articles.

We covered many things, but personally, I found showing how great the "Find@VSU" button can be as well as how good the variety of resources we have to use was wonderful.

I found it interesting that students can reserve appointments with librarians for assistance on certain topics that pertains research and where to find the resources.

ILL Gil-Find

Very informative and helpful in teaching us how to use the different search engines for peer reviewed sources and library chats!

help using Galileo and the other research databases creating an Inter Library Loan account

The different database search options such as Ulrich's Periodicals.

Learned how to look up different things for my Intro to Literature research paper.

Research topics

How to use the anywhere access library

Galileo Anywhere access MLA International Bibliography

Learning how to search for books online.

using the MLA database

using gal.

Please list the topics that were most useful.

demonstrations on how to use the sight

Finding topics

peer review search, and the email article option

ULRICHS WEB seems as it will be the most useful topic that was talked about.

The topics that I found very useful were about finding how to see if an article is Peer Reviewed and how to tell it's a primary source.

where to find research articles

Being able to check on the website if a source was peer reviewed. Also, I did not know about the live chat until today which I know will be very helpful.

Going over how to search articles. Use quotations to keep phrases together or use the AND/OR to narrow searches.

How to tell if an article was peer-reviewed, and also whether it was primary or secondary.

The walk through was very helpful and taught me a lot of things I did not know about.

How to navigate Medline and find the research necessary for writing papers.

I found it useful when they showed me how to use the data base to find articles and how to narrow my search.

How to tell if an article was a primary or secondary resource.

The Medline link

Finding how to properly determine between primary and secondary resources and using peer review.

Finding research articles

How to get to the articles and how to narrow your searches/check if they're peer reviewed.

It was useful learning how to tell if an article is peer reviewed or not.

Odum Library website and medline with full text

Peer review, telling if a source is primary or not, navigating through the websites

How to find what I need and whether it was good.

Galileo was pretty useful.

The topics that were most useful was when we were discussing how to navigate in order to complete our research.

How to find the Odum Library website. How to see if an article is primary.

Please list the topics that were most useful.

How to figure out if a research article is peer reviewed

Locating things on Odom Library.

The finding articles and result list

Medline and Peer Review

the medline link

How to use the online library resources.

Research Guide walk through

everything

Proquest, learning about the different ways to narrow down searches

How to narrow down searches, and how to use every method for research.

search engines

accessing databases

The different databases Valdosta has.

ILL ERIC using a database search

Research ILL

The different databases on campus, course reserves

Research

finding things on the websites

ILL resource

ILL

research database

Learning about the different search outlets and how to navigate the library.

The most useful topics we talked about was how to get in contact the librarians and how to find different resources.

How to request books and how to get more specific search results to topics.

Please list the topics that were most useful.

Searching for resources.

showing ways to get to different databases

How to use other research sources to filter through topics

The different ways I can find articles and books based on my research topic.

Everything, absolutely helpful and now I know how to properly research.

Where to find the books, how to check out a book, how to find books online, etc.

the live chat with a librarian

ILL, Databases, locations of books

How to get to the odum library online, where to look for to get sources for papers. Also when the library closes and opens

How to narrow search results differnt databases how to find a book

the instructions for using GALILEO.

Galileo Library hours Library live chat

Advanced search,

galilao finding research topics

How to refine searches How to look up different databases

Searching Galileo How to narrow searches

how to search in Galileo and how to narrow searches

How to use Galeleo

Galileo and researching a topic. You have to be specific and make sure you spell everything right.

research

how to search for books and that galileo has other databases

Gallileo How to search How to break down search

galileo

Galileo information

Please list the topics that were most useful.

Galileo Instruction

She described the process of researching a subject and/or topic through the Odum Library very well.

how to use and find the databases different databases for different things

How to search for articles on databases using different tools (asterisks, parentheses, etc.). ILL, book searches, encyclopedias.

How to check out books and how to precisely find out information.

use of webpage

How to search key phrases by using quotations.

Journal article research and use of Galileo

How to use the advanced search tools. How to search for articles and books.

The ways to search

everything was useful she helped with our topics and showed us were to find information

how to research and use websites properly

Searching in galilaio

Lots of useful information on how to conduct research using Odum resources.

using galileo, and doing research

helping us understand and being able to use Galileo and other research opportunitis

How to use the library database

Locating things on Galileo to use for research

did not use the library in a while

Everything Ms. Emily discussed (the numbering system, how to navigate the website, links pertaining to specific course research guides, the "Anywhere Access" tab, and the Live Chat option).

How to find books and the page for music information.

The library resources such as Galileo and the live chat.

gallileo

Galileo and library resources that are useful.

Please list the topics that were most useful.

How to explore the site and research books online.

Galileo instruction

Jazz, Hip hop

Hip hop and pop influence

How to search.

He was very helpful with showing us how and describing how to find out different sources

how to find 6 library sources

advanced search

everything

Helped with finding material!

Research skills

Advanced searching

everything

narrowing sources

The use of finding journal sources.

SHe did well

The Researching part and showing us how to use the GAILEO

the information on advanced search

Researching for an essay about music and pop culture

everything

LEARNING ABOUT THE JOURNALS A-Z, UNDER RESOURCES

showing how to use the website more in depth

All of it. Really helpful, found 5 sources in one search

The galileo instructions and how to search specific topics.

Please list the topics that were most useful.

all of them

everything

Learning where to search and how to limit and narrow the search for useful sources.

learning the best ways to type in topics to search and to use quotations during search.

Finding books and Ebooks

Researching

Finding books in the library .

How to use Galileo

good

learning how to use the database

she explained things really well.

Music and American culture

Showing how to get different resources

research

The help provided to access the websites

Galileo research

advanced books and journals search

how to refine searches

Finding the specific topics you want and getting rid of words you don't want to bring up an article with.

All of them honestly.

He gave us some new ways to find some sources for our final essay, which is very helpful, so I appreciate the time he gave us to help us out for our final essay.

finding online books

GALILEO and Gil Search instruction

research and limiting research

Please list the topics that were most useful.

Narrowing down the sources

The online database and narrowing a source

how to exclude things from certain sources and how to view the different books available in the library

researching

The sources.

How to find correct articles

Hip Hop

yes

The new search engine Michael showed us today.

how to narrow your source.

all of them

finding different sources using the advanced search

How to use each resource.

How to find the citation of articles and which way it's easier to download documents

- finding our sources -what keywords to use -difference between .pdf and .html

I liked how it you explained how to find the book sfoudn online in the library.

Navigating the different databases.

looking at Books and Journals how to save certain things

How to find out what is actually available in the library.

how to research information using a variety of sources

Using library resources on discover/Galileo.

searching within magazines Journals A-Z, saving search results

Galileo Advance Search

all

Please list the topics that were most useful.

Everything was helpful.

Searching Galileo for MAgazines

Galileo search ideas

Discover advanced search

Research

searching up books and where to find them.

Plagiarism, Citing, MLA/APA

emailing articles with citations

Finding different ways to find articles.

Everything was helpful and important.

Information Overload and Decision Making

How to use advanced search was helpful. In my previous sessions I did not learn this information. Thank you for your time:)

Using Galileo

Learning to navigate Galileo and to find articles.

Everything was really helpful helped me to understand more information about my topic.

Finding newspapers changing the "and" to "or" or "not" in galileo

searching for topics how to use library using galileo

Emailing, word search and terms

"(combine terms)"

How to use the the Gailao.

ILL Inter Library Loans and using online articles and books outside of VSU.

How to access the website and maneuver around the library website.

She went in depth about how to use galileo for articles ,movies, etc.

finding articles and books on Galileo

Please list the topics that were most useful.

I know how to search on Galileo now

Finding books Finding articles

Information on credible resources

search articals

Searching articles.

I already was familiar with all information that was shared.

how to use different databases

Help with Galileo

Learning how to find the citations properly on Galileo

Galileo

Galileo

How to use the library resources the correct way.

GALILEO Book search using quotations to search

using quotations when searching up two words

GALILEO and how to find a book.

galileo

Email function, printer function

The entire talk was very helpful.

Galileo

Showing the cite section on article

how to use galileo, how to cite the source used

not copying the links in galileo

Navigating through GALILEO

The Mla format proposal

Please list the topics that were most useful.

Learning how to use the library search box to look up things to help for research.

Being able to learn how to find things I want to research.

Learning about how to look up books online in the library was very useful because now I know how to search for book and it is way easier to do that.

Galileo, discover, and the advanced search tool.

everything

The useful links to find sources and a easy way to citation my sources.

- learning about live chat - learning how to search books and articles

searching through Galileo and narrowing down topics that will be helpful for searchings.

Micheal gave us a run thru of galieo and the library website. It was very useful when I have to write a research paper. It lets us have accurate articles and information for our assignments.

Going over the advance search was the best part.

This was all very useful!!!

Knowing how to use the library at home

how to use advanced search and being able to save the link within the article

Galileo

How to search for specific articles for a research paper.

How to use discover

The Galileo option was useful today

galileo live chat advanced search

Article search

Research

How to search in Galileo and also the live chat were very useful.

How to find books in the library. How to contact somebody if I need help.

the helpful guide of conducting research online

He was helpful in telling us how to navigate around the website.

Please list the topics that were most useful.

Discover and using the several tools for research

How to search for specific topics and where to find them in the library

47

Learning about help at library

learning to to search for resources

The Live chat is something to utilize

searching criteria in the library and how to find credible sources

advanced search

Learning how to narrow down searches from broad to specific

Galileo search

the book search link

live chat search engines

How to save the link to the source you searched and how to use citation at that source.

finding books in library

navigating my way around the library website and how to find the exact information i will need

Going over the books and journal search bar and how to find books in the library.

The search keywords thing with the quotes

How to use Galileo

Searching the Library for books. Galileo and finding the MLA citations

using Galileo

How to search for books and articles effectively.

Citations, online journal articles, and keywords

everything was helpful.

Learning how to use Galileo and how to narrow search results.

Please list the topics that were most useful.

Galileo

Galileo

The tour of Galileo, The Plagiarism paper, and how to fully use and access the library website.

Being able to go to Galileo and search for different articles and such to get sources for future papers.

Even though this is my second library session with Ms.Chew I felt like the topic that were the most useful was how to access the Odum Library site when you're outside of campus and also how to narrow down on the information.

finding where to get amazing resources from

How to not plagiarize, also how to us my library resources.

American Government

~Navigating the Library resources available to us. ~Reading e books online through the library resources. ~Narrowing down our research results by using advance search.

Galileo Occupational Outlook Handbook

plagiarism, how to find sources to write a good paper.

American Government

Plagiarism, OOH

showing us how to use galileo and also find books physically in the library was very useful

Usage of Galileo Recognizing plagiarism

Learning about Plagiarism

How to use Galileo, Ebscohost and the Odum Library website.

Occupatonal Outlook Handbook

learning the different tools to use for finding research.

The Occupational Outlook Handout source; learning how to use Galileo

Citing.

galileo

the auto cite feature with galileo

Please list the topics that were most useful.

Citation and research

Learning to navigate Galileo.

The subject specific search engines.

The instruction for Sanger 6302 and the specialize page on what I might find useful.

Ms. Rogers was thorough in her explanation of the tools that can be used when searching for articles. Indicating the drop-down menu for using Boolean operators was particularly useful because it will save time manually inputting them.

How to research demographic statistics/peer reviewed journals.

advanced search

How to find books from the VSU library page.

How can research the resources. How can use galileo

Learning how to use galileo and how to find a book.

Using the advanced search in Galileo.

The Galileo information was helpful because Ive never used it before

How to advance search in gaileo

She helped us learn how to get access to articles and books in Galileo for our research paper for Mrs. Garcia's class

Galileo Search, Research Skills

Galileo functions Live Chat

Learning Galileo and advanced searches

Finding an article in Galileo

Learning how to use Galileo.

all of it was useful, i learned a lot

Data base, all access, live chat, and CQ researcher

Inner city public school education as opposed suburban public school education. The academic achievement gap.

finding resources through Galileo. Also and finding books, webpages and journals through the library database.

How to find information and use Galileo was very helpful and useful.

Please list the topics that were most useful.

Showing us the databases was the most useful and the online librarian help.

Learning about multiple research outlets that are not only online. Getting through info about the library and different avenues for research.

how to use GALILEO, and other searching techniques; also how to use other resources offered by the library including the live chat.

How to find a good topic.

cq researcher, galileo

* the anywhere access * QT reading

Everything

Learning how to use the databases. CQ Research helped a lot.

College social expectations

Discussing Galileo Database, teaching how to access outside of class

Different links that I can make use of

Ms. Bowers showed us how to use the library to its full capacity and how to find good sources throughout the web.

The lesson was very informative and I learned a lot more than past lessons in the library about VSU's database system.

Readers guide to periodical literature Proquest

The overview of the research resources available.

The database searches and dissertations through ebscohost and Proquest.

Ebsco Host, Pro Quest

finding the sources on hard to find subjects.

Tertiary Sources

Everything was great. The database help in particular was incredibly beneficial.

everything

Understanding that the search box is not as smart as me. Suggesting that use of key words and learning how to navigate around sources that do not have full text.

Learning how to use the Galileo advanced search bar, and finding out that there is a live chat to talk to librarians.

Accessing and utilizing Galileo, accessing ebooks through Galileo

Please list the topics that were most useful.

Galileo Search Directions

Researching topics using computer databases

How to use Galileo and the help offered in the VSU library.

how to find online articles

Everything

The CQs

when researching topics the difference between using "and" or "or." Also to use quotation marks to group terms.

Search engine help on odum and CQ Reasercher.

My questions were answered.

proper citations in text and work cited

I may need to come back to the library and get help on this because I had to come to class late.

N/A

I may have questions later about credibility of articles.

Nothing, the two librarians narrowed everything down and explained in great detail.

I did not see how to find if an article was "peer reviewed".

Nothing.

What do you still have questions about?

None

I have no questions.

How to find the "Ulrich" thing he was talking about.

None as of now

N/A

Nothing as yet

Nothing.

I'm good.

Nothing

nothing

nothing

not sure

N/A

n/a

Nothing as of now

N/A

Nothing

none

none

none at the moment

N/A

N/a

Nothing right now.

How to check to see if things are in the library.

What do you still have questions about?

Is there a librarian in the live chat 24/7

N/A

Nothing everything was very helpful

-

N/A

Nope.

so can we not study in internet cafe

No questions

NONE

Nothing

Nothing I can think of

nothing

nothing at the moment

i still dont know what im writing about

Nothing

NA

i feel very prepared

None at this time.

Im sure i will not remember everything mentioned

Nothing

Nothing

nothing

all questions have been answered

Logging into EBSCO host gave me some trouble after I thought that I already signed into GALILEO.

What do you still have questions about?

nothing currently

The book search

none

She answered questions I did not know I had!

Nothing

nothing

Nothing.

Everything was pretty much answered

n/a

N/A

N/A

nothing

nothing

How to cite and start this bad boy!

nothing

Nothing

nothing

How do I find books that can relate to this day in age.

Nope

nothing

dont have any questions about anything

NA

N/A

nothing at the moment

nothing

nothing

N/A

nothing

N/A

Nothing.

nothing

Nothing!

What do you still have questions about?

She covered everything I wanted to know.

n/a

Nothing

nothing

Nothing

N/A

Nothing, it was a very informational session

nothing she covered everything

No

Nothing

No I do not

N/A

i do not have any further questions about anything that we have learned in todays class

Nothing

Nothing she answered everything.

all of my questions were answered.

N/A

Nothing really

None

I don't have any questions.

n/a.

N/A

All of my questions were answered.

nothing

What do you still have questions about?

Nothing

?

how to find up to date articles.

Nothing at this time.

Nothing

How to find the article from Galileo that says it is a VSU text

Nothing, covered everything I had a question about.

Nothing.

nothing really

I don't have any

None!

nothing

Nothing

n/a

nothing

nothing

Nothing so far

Mrs. Rogers covered each of my questions in depth.

nothing

Nothing, everything was well-explained.

N/A
