

VSU Biology Department
Tenth Annual Graduate Student Research Symposium
Friday, November 1, 1:00PM – 3:30PM
Bailey Science Center Room 1023

Oral Presentations: BSC 1023

Student	Time	Title
Josh Brown	1:00	Cross Species Transference of Microsatellite primers for Marker Identification in <i>Tillandsia usneoides</i>
Katie Butts	1:15	Risk Analysis of West Nile virus in Lowndes County
Matthew Cowan	1:30	Trends in Immunology: Molecules, Cells, and Tissues
Emily Evans	1:45	Surveillance of Permethrin Resistance in Valdosta populations of <i>Aedes albopictus</i>
Dariana Kesler	2:00	Vector-Host Incidence Comparison Between ITS1-ITS2 genotypes of <i>Cytauxzoon felis</i> in South Georgia
Christopher Slaton	2:15	A Comparison of <i>Dirofilaria immitis</i> Infection Rates in Mosquito Communities of Urban and Rural Habitats in South Georgia and North Florida
Danielle Ward	2:30	Investigating the Deep Chlorophyll Maximum in Lake Louise

Poster Presentations:

Damion Castellano	Phenotyping Genetic Resistance in Peanut
Andrew Harvin	Characterizing the synergistic effect of sulfur and systemic fungicides for late leaf spot and white mold management
Blake Lamb	Comparison of gopher tortoise and nine-banded armadillo commensal fauna

Poster Presentations: Second floor of the Bailey Science Center, in the open area outside of the Biology Department office. Posters will be up by 1:00PM, students will be at their posters after the conclusion of the oral presentations.
